Permit No. \_\_\_\_\_

**Irrigation Permit Application**

**General Requirements:**

- All guidelines must be adhered to before service will be activated
- Any deviations from the original permit conditions may result in a written violation or termination of irrigation service
- Irrigation and plumbing contractors must be licensed or registered by the City of St. Cloud Building Department
- Periodic and annual inspections will be conducted on all connections

**Inspection Requests:**

Inspection requests can be made with the Water / Wastewater Line Systems Divisions. Inspections will be conducted within 72 hours of the request. The City is not responsible for foliage planted prior to the irrigation inspection being passed.

## Potable Water Irrigation

### Requirements:

A backflow prevention assembly must be installed by the property owner or a licensed plumber. Only a licensed plumber may install the device on a commercial property.

Present a legible site plan of the property indicating size, location, and number of sprinkler heads and/or house bibs to be installed. If any sprinkler heads are to be placed in the city's rights of way you will also be required to obtain a Rights of Way (ROW) Permit.

Monthly usage charges do apply.

### Application Fees:

Permit - \$100

(Inside City) ROW Permit - \$10

### Tap and Meter Fees by Size:

| <u>Meter Size</u> | <u>Fee- Inside City Limit</u> | <u>Fee – Outside City Limits</u> |
|-------------------|-------------------------------|----------------------------------|
| ¾ inch            | \$280.00                      | \$420.00                         |
| ¾ inch backflow   | \$407.00                      | \$610.50                         |
| ¾ inch cellular   | \$770.00                      | \$936.00                         |
| 1 inch            | \$390.00                      | \$585.00                         |
| 1 inch cellular   | \$770.00                      | \$963.00                         |
| 1 ½ inch          | \$674.00                      | \$1,011.00                       |
| 2 inch            | \$792.00                      | \$1,188.00                       |
| 2 inch cellular   | \$958.00                      | \$1,437.00                       |
| 4 inch            | material cost                 | material cost                    |
| 4 inch cellular   | material cost                 | material cost                    |

## Reclaim / Reuse Irrigation

### Requirements:

Reclaim water is available only in specific areas of the city. To find out if your property is within our reclaim service area, please call St. Cloud Utilities at (407) 957-7344. All valve boxes and sprinkler tops must be manufactured purple / lavender (Pantone 550 c) (paint is not acceptable). The City requires manufactured purple / lavender pipe for new installation. Purple / lavender pipe and caps are available from most irrigation supply sources. Reclaim / reuse irrigation must be used for an in-ground sprinkler system only, no hose bibs are allowed.

The system must be contained on your property and designed to prevent spray into the streets, sidewalks, and swimming pools. Reclaim water must never be used for drinking, filling pools, or bathing. Present a legible site plan of the property indicating size, location and number of sprinkler heads. If any heads are to be placed in the city's rights of way (ROW), you will also be required to obtain a ROW Permit. This permit can be obtained from the St. Cloud Utilities Department. Monthly usage charges do apply.

### Application Fees

Permit - \$45

(Inside City) ROW Permit - \$10

### Tap & Meter Fees by Size:

| <u>Meter Size</u> | <u>Fee- Inside City Limit</u> | <u>Fee – Outside City Limits</u> |
|-------------------|-------------------------------|----------------------------------|
| ¾ inch            | \$280.00                      | \$420.00                         |
| ¾ inch cellular   | \$770.00                      | \$770.00                         |
| 1 inch            | \$390.00                      | \$585.00                         |
| 1 inch cellular   | \$770.00                      | \$770.00                         |
| 1 ½ inch          | \$674.00                      | \$1,011.00                       |
| 2 inch            | \$792.00                      | \$1,188.00                       |
| 2 inch cellular   | \$958.00                      | \$958.00                         |
| 4 inch            | material cost                 | material cost                    |
| 4 inch cellular   | material cost                 | material cost                    |

## Alternate Meter

**Requirements:** Alternate meters are for non-irrigation purposes, such as washing cars and filling pools. This meter may not be connected to an in-ground irrigation system and you are limited to three hose bibs. A backflow prevention device is not required. Vacuum breaks must be installed on each hose bib. Monthly usage charges apply. Sewer charges will not be charged on the water used.

### Application Fees:

|                    |          |
|--------------------|----------|
| Permit             | \$12.50  |
| Water Impact Fees  | \$17.50  |
| Tap and Meter Fees | \$280.00 |
| Total:             | \$310.00 |
